

THE GOLD LEAF.

ESTABLISHED 1881.

—BY—
THAD R. MANNING.

THURSDAY, APRIL 14, 1910.

By the way, how many lawyers have you heard criticizing Governor Kitchin for his action in the Shemwell matter?

There is lots of political talk these days that is not getting into the papers.—Durham Herald.

And a lot of political talk gets into the papers that is not worth the space it occupies.

The North Carolina boys have been victorious in the debating contests even if the University did lose to Virginia in the ball games last week—and there is more glory in a conquest of brains than there is in one of muscle and legs.

The Wilmington Star refers to the Durham Sun as the "sweet-toothed choir singer," whereas Jim Robinson comes back and says it is pleasing to acquire such a kindly expression after thirty-seven years of constant labor in the editorial harness.

How many homicides occur in North Carolina in a week? If an accurate list could be made the weekly average would startle thinking people.—Statesville Landmark.

And such crimes will continue to increase until there is a change in the laws of North Carolina that permit murderers to escape punishment so easily.

It is not often that negroes resort to lynching, but the white man is imitated even in this sometimes. A mob composed of negroes overpowered a constable near Keo, Ark., on the 4th, and seized his two prisoners, a man and a woman, both negroes, and strung them up and shot their bodies full of bullets. The victims were charged with killing the husband of the woman and the wife of the man, the object being that they would be free to "have one another."

Governor Kitchin does not seem to have drawn the fire of unfavorable criticism for pardoning A. W. Annan, former Republican sheriff of Sampson county, serving 1 year in the State penitentiary for embezzlement of \$12,000 county funds while sheriff, as he did in the Shemwell case. Reason for pardon is that Annan has a diseased leg which necessitates amputation and he could not receive proper treatment in the State prison. Annan was sentenced at the October, 1908, term of Sampson court.

The Raleigh State Democrat propounds this pertinent question which some folks may regard as personal if not impertinent:

What has become of those staunch, sturdy old temperance men who at the close of conferences and associations and conventions asserted their allegiance to temperance, counseling the younger men to live upright, temperate lives and to bring up their boys to do likewise? These landmarks have been displaced by a force which has a new commandment, namely, "Watch politics; see to it the right men are sent to the Legislature; see to it that officers obey the law and that its violators are punished."

The law of selecting jurors in murder trials in North Carolina needs to be changed. The defense has an unfair advantage of the State in the matter of challenges and the average man who is competent for jury service is ineligible under the very nature of things. If a man has brains enough to form an opinion and sense enough to express an opinion after he has formed it, he may be excused no matter how honest and fair-minded he may be, although he has heard but one side of the question. If, however, he never reads a newspaper, never discussed the subject with his neighbors, knows nothing about the case at issue, or little of anything else for that matter, and has not formed or expressed an opinion as to one's guilt or innocence, such a man is competent to sit in the jury box, "hear the evidence and render a verdict accordingly." And it is not infrequently occurs that what the lawyers say has more influence upon some such jurors than the sworn testimony of witnesses in the case.

NEWSPAPER ADVERTISING DEADBEATS?

We notice that some of our exchanges are carrying the advertising of the Bloodline Corporation of Boston, Mass. We had this business (?) for awhile, placed through the International Advertising Agency, so-called, of Boston. Our experience with this concern leads to the opinion that they are newspaper advertising deadbeats who will not pay their debts, and as such unworthy of confidence or credit. And if the Bloodline Company, for whose benefit the advertising was done, is not in the same class with the agency that made the contract, their attitude in the matter does not show it. Business courtesy requires that correspondence be noticed at least, if business honesty does not demand that one shall pay or see that an account contracted in his behalf and which he receives the benefit of, is paid—which we do not claim he should do.

Having had opportunity to size up the International Advertising Agency we notified a number of publishers some months ago and put them on their guard. The advertisements were dropped from their papers soon afterwards but we have not been advised that any of them were paid for. The presumption is that they were not or the advertising would not have been discontinued. Perhaps the Oxford Public Ledger, the Goldsboro Headlight, the Newton Enterprise, the Gastonia Gazette and others could enlighten us on the subject.

Allsbrook For Solicitor.

Wilmington Enterprise.

The announcement of the retirement of C. C. Daniels from the office of solicitor of the Fourth Judicial District, has brought before the people of that district the claims of Richard G. Allsbrook, of Edgecombe county. Mr. Allsbrook is a native of Halifax county and enjoys the confidence and esteem of those with whom he spent his earlier days. For some years he has made his home in Tarboro, identifying himself with everything which has made for the best along in town and country. As a practitioner, he has taken a prominent place and is regarded as one of the brightest young attorneys in the East. His vigorous services freely and gladly to advance the cause of Democracy, and in every way worthy of any honor that the party can place upon him. We desire to see Mr. Allsbrook the nominee of the party, feeling that he is eminently fitted to protect the State against those who violate its laws. The office of solicitor is no easy one, a man must be honest, conscientious and fearless, and we believe that Mr. Allsbrook meets every requirement.

Must Be Fair and Truthful.

Charlotte Observer.

This from the Winston-Salem Journal: "The manner in which Mr. William C. Lyon, a Charlotte Observer reporter, handled Mr. T. T. Hicks of Henderson in a recent controversy shows that the newspaper man did not go off half-cocked. Mr. Hicks should know that, however a reporter may feel in a matter, he tells the truth. The people of the State are dependent on the newspapers for correct statements of cases, and it is very seldom that a member of the profession lies about the things he sees and hears. Mr. Hicks may be a good politician, but his discretion does not appeal for as much as his efforts to vindicate truth. Which states the case with such exactness that we have nothing to add. The man who can or will not fairly and truthfully report public events of whatever sort has no place on this paper."

"The Land of Nod."

The famous and popular musical extravaganza, "The Land of Nod," will be presented at the Grand Theatre, April 18th. It comes bearing a record of success which has rarely been equaled in this country, and from ample testimony at hand this condition is thoroughly justified. The production is said to be massive and beautiful, and is based upon absolutely original lines, not only as to scenery, costumes and electrical effects, but in the matter of character creations. The whole performance after the introductory prologue, in which the child "Bourne" falls asleep and dreams, depicts an imaginative region called "The Land of Nod," with its castle of clouds, its pepper mill river and candy bridges, its Gnomish trees and curiously shaped hills and mountains in the background. The palace of the sandman, which is astonishingly unique in its formation, and the fantastic and quaint and fantastic conception, and the people who inhabit these strange places emphasize and preserve the odd character of the author's general scheme. Distinguished among these curious personages are "The King and Queen of Hearts," who rule the land, and his wife, "The Queen of Hearts," their son "The Jack of Hearts," "The Weatherman," "The Sandman," "April Fool," "The Welsh Rabbit," "The Telephone Man," "The Alarm Clock," "The Man in the Moon," "The Roly, Roly Alice," "The Corns Girl," full of laughter and animation and the current slang of Broadway, bounds in among them greatly to their amusement. Scores of beautiful girls clad in all manner of dainty, varicolored costumes, culled from the scenes by their graceful dancing, rhythmic evolutions, and in this general setting of splendor the spectator is amused and perfectly entertained by plenty of good comedy and by a musical score which is said to be rich in melody and to contain an abundance of the popular swinging "catchy" kind of music, which is quickly caught and remembered. The sale of seats for this unusual production is now on at Kermer-McNair Company's Pharmacy.

Delayed Attention Costs Money.

Your house wears out if not painted. It costs more to repair it than it costs to paint it. It doesn't cost much to paint with the L. & M. Paint, because 4 gallons of L. & M. Paint, and 3 gallons of Linseed Oil makes seven gallons of ready-for-use paint at a cost of about \$1.30 for five years use in every part of the United States proves it. Dr. E. A. Steiner, of Grinnell University, delivered a lecture last Wednesday night on "Tolstoi, the Man." He impressed his audience as one who exemplified the life principles which are the keystone of the Russian philosopher's character. While the student body of the University has been addressed by such foremost thinkers as Lyman Abbott, David Starr Jordan, Woodrow Wilson, and Ambassador Bryce, seldom has any speaker held an audience in Gerrard Hall more rapt in attention than Dr. Steiner. The delightful personality of Dr. Steiner, "the dreamer" as he admitted himself to be, would have made any lecture enjoyable; but his talk upon Tolstoi did not need the fire his gesticulation and frequent humorous interjections to make it a success. Tolstoi was the fountain source from which Dr. Steiner drew the idealism which constantly made itself felt throughout the entire lecture.

Dr. Steiner, out of a long personal friendship with Tolstoi, graphically told the life struggles and life purposes of Tolstoi. "Tolstoi," said Dr. Steiner, "has done what he has through love. Born of aristocratic parents, brought up in the atmosphere of the best society of a Russian city, he could not be satisfied with a life whose only purpose was to continue in the way of wealth. He asked himself questions which could not be answered in the ramshackle university at which he was a student. He came under the influence of Rousseau and aided by his own serious thought he became a student of the purpose of his life. He determined to do the will of God. He realized the unreality of the individual as a unit and considered the lowest peasant his brother and he set out to do that lay before him for the uplift of these people. He has worked with consistent unselfishness, often times in the face of blank discouragement. He has written 60 to 70 thousand words, the simple life of the Tolstoi family and numerous visitors of whom he has often been one. He told of Tolstoi when he was 40,000 but 50,000 to 60,000 votes and a philosopher recognizing the force of love.

Agitation for Local Self-Government Will Continue Despite Talk to the Contrary, Says This Writer.

Editor Gold Leaf.

From the criticisms of the press in certain quarters, as well as those emanating from individuals of the movement made by the citizens of Vance in the interest of local option, one would infer, has stirred up a hornet's nest throughout the State and has driven consternation to the hearts of politicians of both parties, who have taken refuge on the fence top, and hardly know on which side to fall. Those behind this movement, as has been intimated, are neither snobs, sots, nor drunkards, but sober, conservative, and thoughtful men; neither have they political axes to grind nor are they catering for office at the hands of the people, but are representatives of good citizenship as any in North Carolina. But they do oppose the prohibition law now on the statute books of the State, because it is contrary to the principles of a Democratic government, and abridges the rights of its citizens, which are guaranteed to them by the Constitution. Therefore as free citizens, they oppose prohibition which they believe to be a farce and humbug, as is evident to all who have studied the question. The Legislature was called in an extra session to settle the railroad rate matter, which was satisfactorily adjusted; but by the chicanery of demagogues, posing as moralists, they called an extra election, costing the people \$70,000, to determine whether liquors should be sold or prohibited in North Carolina and placed the date of election at a season of the year when they knew a full vote would not be cast, nor did they allow the people time to hear the question discussed. The result was prohibition prevailed, but 50 to 60 thousand voters failed to go to the polls. Had the election occurred at the regular time in November it would have been defeated not by 40,000 but 50,000 to 60,000 votes and this the demagogues knew and took snap judgment on the people.

But what has this law accomplished? Has it diminished the consumption of whiskey? No. Has it lessened drunkenness? No. Has it decreased crime? No. Has it extinguished the illicit distiller and blind tigers? No. Then what has it accomplished? It has created more unrest, discontent, demoralization and lawlessness than any law ever enacted. The Commissioner of Revenue at Washington in his report of December 1, 1909, states that more whiskey was shipped to North Carolina during the year 1909, than in any preceding year. The communication was sent to the News Observer by its Washington correspondent. Not a day passes, but the express company delivers to its patrons in this State thousands of dollars worth of whiskey. Nor is there any count of our own manufacturers; why should they have the right of way? It is because the Virginia whiskey has a better word, or are they catering for their operation during the coming campaign, to keep the throttle on the throats of our people, to furnish the liquor dealer and replenish the treasury of Virginia with the millions of dollars that are annually leaving this State? While our treasury is being depleted, and taxes of property owners are increasing, to supply the deficit from the loss of revenue. Who among the people are being benefited under the prohibition law? I know but two classes, viz. The blind tigers, and their defenders. Now whatever sentiments a lawyer himself may entertain, according to the rules of the profession, he cannot consistently refuse to defend one charged with the most heinous crime, be he even a poor wretch of a blind tiger, who in the estimation of the State, is a dangerous criminal, should be dealt with more than a murderer, a highway robber. But not so with the level headed, broad gauged attorney who allows no sentiment to interfere with his professional duties. With the most overflowing with sympathy, with zeal and ability, with the logic of Webster and eloquence of a Demosthenes, he transforms the vicious tiger into a harmless, innocent little lamb, and asks for his acquittal. Whatever the verdict rendered may be, guilty or not guilty, the attorney, Benjamin Hicks, Butch Jordan, from the funds of money accumulated from selling the accused stuff, so abhorrent to the tender conscience of the prohibitionists, is enabled to pay the cost of the appeal of the prohibition law, which is a farce and a fraud upon the people. Let the question be agitated from the mountains to the seashore, until it shall be expunged from the statute books of North Carolina, thereby giving the people as free men, the right of self-government.

HAIR HEALTH.

If You Have Scalp or Hair Trouble, Take Advantage of this Offer.

We could not afford to so strongly endorse Rexall's "93" Hair Tonic and continue to sell it as we do, if we were not certain that it would do all we claim it will. Should our enthusiasm carry us away, and Rexall's "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our standard of honesty and consequence our business prestige would suffer. Therefore, when we assure you that if your hair is beginning to unnaturally fall out or if you have any scalp trouble, Rexall's "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness, you may rest assured that we know what we are talking about. Out of one hundred test cases Rexall's "93" Hair Tonic gave entire satisfaction in ninety-three cases. It has been proved that it will grow hair even on bald heads, when, of course, the baldness had not existed for so long a time that the follicles, which are the roots of the hair, had not become absolutely lifeless. Rexall's "93" Hair Tonic is vastly different from other similar preparations. We believe that it will do more than any other human agency toward restoring hair growth and hair health. It is not greasy and will not gum the scalp or hair or cause permanent stain. It is as pleasant to use as pure cold water. Our faith in Rexall's "93" Hair Tonic is so strong that we ask you try it on your positive guarantee that your money will be cheerfully refunded without question or quibble if it does not do as we claim. Certainly we can offer no stronger argument. It comes in two sizes, prices 50 cents and \$1.00. Remember you can obtain it only at our store, The Rexall Store, W. W. Parker, Druggist.
